Vibrational Medicine/Music/Art is key to healing, transformation and ultimately Ascension. Light (laser) is used to heal wounds and destroy Cancer, Ultrasound is now being used to regrow teeth and destroy Cancer cells .The Sound Frequency 528 Hz is promoted by Professionals to accelerate DNA healing, Mind Entrainment Technology can enhance IQ, Accelerated Learning, accelerated healing, pain relief, self hypnosis, achieve the deepest states of meditation that may otherwise take over 30 years to master and more.

The concept of Ascension is being realized more each day around the world by Health Professionals and the general public alike once they are provided with all these "Key" concepts and thoroughly studied sciences that can't be disputed.

In Psychology, music cognition is the field of research studying the effects of music upon the brain. Today it may be more commonly known that classical music can increase IQ (Net Search for Mozart Effect). The reason why classical music might be more effective to develop intelligence is because it is usually more resonant and uses more range of musical notes or sound frequencies that stimulate additional regions of the brain than other music genres. This is why the melody "They Key" maybe key to your own development and the intricacy of the Ascension Series art is a direct mirror of its influence on the mind. "The Key" has more notes than any typical classical music, is longer (57 minutes) and finally is resonant using pure electric guitar utilizing Fender's Noiseless pickups (no humbucker needed!).

We either relate to specific music on an emotional level and it may dictate our emotions such as anger, depression or we may *decide* to use it to "lift our spirits". Psychosomatic Ascension -through suggestion and hypnosis sunburn and blisters can appear as well as healing -so if people can appear what they think how about changing your thoughts for Ascension?
